African American Literature Beyond Race Gene Andrew Jarrett 2006-04-01 It is widely accepted that the canon of African American literature has racial realism at its core: African American protagonists, social settings, cultural symbols, and racial-political discourse. As a result, writings that are not preoccupied with race have long been invisible—unpublished, out of print, absent from libraries, rarely discussed among scholars, and omitted from anthologies. However, some of our most celebrated African American authors—from Zora Neale Hurston and Richard Wright to James Baldwin and Toni Morrison—have resisted this canonical rule, even at the cost of critical dismissal and commercial failure. *African American Literature Beyond Race* revives this remarkable literary corpus, presenting sixteen short stories, novelettes, and excerpts of novels—from the postbellum nineteenth century to the late twentieth century—that demonstrate this act of literary defiance. Each selection is paired with an original introduction by one of today's leading scholars of African American literature, including Hazel V. Carby, Gerald Early, Mae G. Henderson, George Hutchinson, Carla Peterson, Amritjit Singh, and Werner Sollors. By casting African Americans in minor roles and marking the protagonists as racially white, neutral, or ambiguous, these works of fiction explore the thematic complexities of human identity, relations, and culture. At the same time, they force us to confront the basic question, “What is African American literature?” Stories by: James Baldwin, Octavia E. Butler, Samuel R. Delany, Paul Laurence Dunbar, Frances Ellen Watkins Harper, Chester B. Himes, Zora Neale Hurston, Nella Larsen, Toni Morrison, Ann Petry, Wallace Thurman, Jean Toomer, Frank J. Webb, Richard Wright, and Frank Yerby. Critical Introductions by: Hazel V. Carby, John Charles, Gerald Early, Hazel Arnett Ervin, Matthew Guterl, Mae G. Henderson, George B. Hutchinson, Gene Jarrett, Carla L. Peterson, Amritjit Singh, Werner Sollors, and Jeffrey Allen Tucker.

Essays on Spinoza's Ethical Theory Matthew J. Kisner 2014-04-17 Thirteen original essays by leading scholars explore aspects of Spinoza's ethical theory and, in doing so, deepen our understanding of the richly rewarding core of his system. Given its importance to his philosophical ambitions, it is surprising that his ethics has, until recently, received relatively little scholarly attention. Anglophone philosophy has tended to focus on Spinoza's contribution to metaphysics and epistemology, while philosophy in continental Europe has tended to show greater interest in his political philosophy. This tendency is problematic not only because it overlooks a central part of Spinoza's project,

but also because it threatens to present a distorted picture of his philosophy. Moreover, Spinoza's ethics, like other branches of his philosophy, is complex, difficult, and, at times, paradoxical. The essays in this volume advance our understanding of his ethics and also help us to appreciate it as the centerpiece of his system. In addition to resolving interpretive difficulties and advancing longstanding debates, these essays point the direction for future research. Spinoza's enduring contribution to the development of ethical theory, to early modern philosophy, and indeed to early modern history generally, provide us with good reason to follow the lead of these essays.

Themes in Geographic Thought (Routledge Revivals) Milton E. Harvey 2014-03-18 *Themes in Geographic Thought*, first published in 1981, explores in breadth and depth the interrelationships among the history of Geography, geographic thought, and methodology, specifically focusing on the interactions between geographical research and various contemporary philosophical schools: positivism, pragmatism, functionalism, phenomenology, existentialism, idealism, realism and Marxism. An attempt is made to synthesise Geography's historically rich tradition with the current diversity in approaches to the discipline, based on the belief that 'geographic thought', at any point in time, is a manifestation of the mutual influence between the prevailing philosophical viewpoints and the major methodological approaches in vogue. Each chapter presents an overview of the concrete ideas of a particular school of philosophy and stresses its relevance and impact on various aspects of Geography.
