South African Schooling: The Enigma of Inequality Nic Spaull 2019-11-05 This volume brings together many of South Africa's leading scholars of education and covers the full range of South African schooling: from financing and policy reform to in-depth discussions of literacy, numeracy, teacher development and curriculum change. The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with: Are there different and preferential equilibria we have not yet thought of or explored, and if so what are they? In practical terms, how does one get to a more equitable distribution of teachers, resources and learning outcomes? While decidedly local, these questions resonate throughout the developing world. South Africa today is the most unequal country in the world. The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth. This is the largest 90-10 gap in the world, and one that is reflected in the schooling system. Two decades after apartheid it is still the case that the life chances of most South African children are determined not by their ability or the result of hard-work and determination, but instead by the colour of their skin, the province of their birth, and the wealth of their parents. Looking back on almost three decades of democracy in South Africa, it is this stubbornness of inequality and its patterns of persistence that demands explanation, justification and analysis. "This is a landmark book on basic education in South Africa, an essential volume for those interested in learning outcomes and their inequality in South Africa. The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race, class, and place. The book brings together the wealth of decades of research output from top quality researchers to explore what has improved, what has not, and why." Prof Lant Pritchett, Harvard University "There is much wisdom in this collection from many of the best education analysts in South Africa. No surprise that they conclude that without a large and sustained expansion in well-trained teachers, early childhood education, and adequate school resources, South Africa will continue to sacrifice its people's future to maintaining the privileges of the few." Prof Martin Carnoy, Stanford University "Altogether, one can derive from this very valuable volume, if not an exact blueprint for the future, then certainly at least a crucial and evidence-based itinerary for the next few steps." Dr Luis Crouch, RTI

Spear Paul S. Landau 2022-06-07 A revelatory and definitive account of how Nelson Mandela and his peers led South Africa to the brink of revolution against the postwar twentieth century's most infamously racist regime. Spear: Mandela and the Revolutionaries brings to life the brief revolutionary period in which Nelson Mandela and his comrades fought apartheid not just with words but also with violence. After the 1960 Sharpeville police shootings of civilian protesters, Mandela and his comrades in the mass-resistance order of the African National Congress (ANC) and the Communist Party pioneered the use of force and formed Umkhonto we Sizwe (MK), or Spear of the Nation. A civilian-based militia, MK stockpiled weapons and waged a war of sabotage against the state with pipe bombs, Molotov cocktails, and dynamite. In response, the state passed draconian laws, militarized its police, and imprisoned its enemies without trial. Drawing from several hundred first-person accounts, most of which are unpublished, Paul Landau traces Mandela's allies-and opponents-in communist, pan-Africanist, liberal, and other groups involved in escalating resistance alongside the ANC. After Mandela's capture, the Pan Africanist Congress planned to initiate street violence, and MK organized Operation Mayibuye, an uprising to be led by trained commandos. The state short-circuited those plans and subsequently jailed, exiled, tortured, and murdered revolutionaries. The era of high apartheid then began. Spear reshapes our understanding of Mandela by focusing on this intense but relatively neglected period of escalation in the movement against apartheid. Landau's book is not a biography, nor is it a history of a militia or an army; rather, it is a riveting story about ordinary civilians debating and acting together in extremis. Contextualizing Mandela and MK's activities amid anticolonial change and Black Marxism in the early 1960s, Spear also speaks to today's transnational antiracism protests and worldwide struggles against oppression.

Socio-Economic Rights in South Africa Malcolm Langford 2013-11-18 The embrace of socio-economic rights in South Africa has featured prominently in scholarship on constitution making, legal jurisprudence and social mobilisation. But the development has attracted critics who claim that this turn to rights has not generated social transformation in practice. This book sets out to assess one part of the puzzle and asks what has been the role and impact of socio-economic strategies used by civil society actors. Focusing on a range of socio-economic rights and national trends in law and political economy, the book's authors show how socio-economic rights have influenced the development of civil society discourse and action. The evidence suggests that some strategies have achieved material and political impact but this is conditional on the nature of the claim, degree of mobilisation and alliance building, and underlying constraints.

Cape Town Harmonies Gaulier, Armelle 2017-07-19 "Cape Town's public cultures can only be fully appreciated through recognition of its deep and diverse soundscape. We have to listen to what has made and makes a city. The ear is an integral part of the 'research tools' one needs to get a sense of any city. We have to listen to the sounds that made and make the expansive 'mother city'. Various of its constituent parts sound different from each other ... [T]here is the sound of the singing men and their choirs ("teams" they are called) in preparation for the longstanding annual Malay choral competitions. The lyrics from the various repertoires they perform are hardly ever written down. [...] There are texts of the hallowed 'Dutch songs' but these do not circulate easily and widely. Researchers dream of finding lyrics from decades ago, not to mention a few generations ago – back to the early 19th century. This work by Denis Constant Martin and Armelle Gaulier provides us with a very useful selection of these songs. More than that, it is a critical sociological reflection of the place of these songs and their performers in the context that have given rise to them and sustains their relevance. It is a necessary work and is a very important scholarly intervention about a rather neglected aspect of the history and present production of music in the city." – Shamlu Jeppie, Associate Professor, Department of Historical Studies, University of Cape Town

Cecil Rhodes and the Cape Afrikaners Michael Tamarkin 1996 This is an account of a fascinating alliance between two seemingly incompatible political partners. On the one side Cecil Rhodes, perhaps the greatest British imperialist of his time - on the other side the Cape Afrikaners, part of the ethnic community which was engaged in a major war with that very empire at the close of the nineteenth century. Rhodes skilfully courted the Cape Afrikaners, despite his ardent imperialism and their autonomous colonial intent. While the impact of British imperialism and capitalism set in motion a process of ethnic and political consciousness, it also engendered a desire to be associated with the British. Such was Rhodes's charm that to some Cape Afrikaners he became a political hero, even an idol. But all this came to an abrupt and dramatic end with the filibustering expedition of Rhodes's lieutenant Jameson into the Transvaal at the end of 1895. This act of aggression stood in total contradiction to an important element of the political outlook of Cape Afrikaners and, while unwavering in their loyalty to the British Empire, they began to show solidarity with their republican brethren. Tamarkin successfully shows that the disengagement of the Cape Afrikaners from Rhodes was neither immediate nor inevitable. It was a painful and long process which was driven not just by the Jameson Raid but by Rhodes's increasingly provocative conduct. This extraordinary relationship only finally finished in 1898 during the election campaign, in which Rhodes and the Afrikaner Bond fought tooth and nail for control of the Cape Colony.

Spud John van de Ruit 2012-09-18 It's South Africa 1990. Two major events are about to happen: the release of Nelson Mandela and, more importantly, it's Spud Milton's first year at an elite boys only private school. Cursed with parents from well beyond the lunatic fringe, a senile granny, and a dormitory full of strange characters, Spud has his hands full trying to adapt to his new home. Surrounded by names such as Gecko, Rambo, Rain Man and Mad Dog, Spud takes his first tentative steps along the path to manhood. (The path, it seems, could be a rather long road.) Armed with only his wits and his diary, Spud takes us from illegal night swimming to the red-hot furnace of the cricket pitch, from ghostbusting to a catastrophic family vacation. He also invites us into the mind of a boy struggling to come to terms

with a strange new world; a boy whose eyes are being opened to love, friendship and complete insanity.

The Way Of The Women Marlene van Niekerk 2015-05-19 How can you speak when speech has been taken away? When the only person listening refuses to understand? Milla, trapped in silence by a deadly paralysing illness, confined to her bed, struggles to make herself heard by her maidservant and now nurse, Agaat. Contrary, controlling, proud, secretly affectionate, the two women, servant and mistress, are more than matched. Life for white farmers like Milla in the South Africa of the 1950s was full of promise - newly married, her future held the thrilling challenges of creating her own farm and perhaps one day raising children. Forty years later, the world Milla knew is as if seen in a mirror, and all she has left are memories and diaries. As death draws near, she looks back on good intentions and soured dreams, on a brutal marriage and a longed-for only son scarred by his parents' battles, and on a lifetime's tug-of-war with Agaat. As Milla's old white world recedes, in the new South Africa her guardian's is ever more filled with the prospect of freedom. Marlene Van Niekerk's is a stunning new literary voice from South Africa, to compare to J.M. Coetzee and Nadine Gordimer.

Soul Fire brings together an entertaining and thought-provoking collection of Dikeni's prose. The essays run close to the heartbeat of South Africa but also travel beyond to Brazil, Norway, Holland, Germany and India.

An African Elegy Ben Okri 2015-04-30 Dreams are the currency of Okri's writing, particularly in this first book of poems, An African Elegy, but also in his books of short stories and prize-winning novel The Famished Road. Okri's dreams are made on the stuff of Africa's colossal economic and political problems, and reading the poems is to experience a constant succession of metaphors of resolution in both senses of the word. Virtually every poem contains an exhortation to climb out of the African miasma, and virtually every poem harvests the dream of itself with an upbeat restorative ending' - Giles Foden, Times Literary Supplement

Diversity High Saloshna Vandeyar 2008 Diversity High offers special insight into school change and social transition in racially divided communities. It underlines the obvious notion that change is difficult and confirms that leadership in an academic environment matters in changing schools. Vandeyar and Jansen provide a thorough investigation allowing readers to distinguish second-order changes (changes to curriculum, staffing, culture, and leadership), from first-order changes, (changes in student complexion in de-racializing schools). The study demonstrates the non-linearity of reforms by capturing the dynamism of change in powerful photographic records ranging from origins to change (demonstrated through black and white to color pictures). Conveying complexity through the ways in which race, class and culture intersect to produce unintended consequences; this book is concise and expertly researched. Ultimately, Vandeyar and Jansen celebrate human agency over determinist structures at the center of change through their in-depth analysis of a white South African high school that pursued transformation against the grain of its own racial biography.

From Memory to Marble Elizabeth Rankin 2020-02-10 For the first time, the 92-metre frieze of the Voortrekker Monument in Pretoria, one of the largest historical narratives in marble, has been made the subject of a book. The pictorial narrative of the Boer pioneers who conquered South Africa's interior during the 'Great Trek' (1835-52) represents a crucial period of South Africa's past. Conceptualising the frieze both reflected on and contributed to the country's socio-political debates in the 1930s and 1940s when it was made. The book considers the active role the Monument played in the rise of Afrikaner nationalism and the development of apartheid, as well as its place in post-apartheid heritage. The frieze is unique in that it provides rare evidence of the complex processes followed in creating a major monument. Based on unpublished documents, drawings and models, these processes are unfolded step by step, from the earliest discussions of the purpose and content of the frieze, through all the stages of its design, to its shipping to post-war Italy to be copied into marble from Monte Altissimo, up to its final installation in the Monument. The book examines how visual representation transforms historical memory in what it chooses to recount, and the forms in which it is depicted. The second volume expands on the first, by investigating each of the twenty-seven scenes of the frieze in depth, providing new insights into not only the frieze, but also South Africa's history. François van Schalkwyk of African Minds, co-publisher with De Gruyter writes: From Memory to Marble is an open access monograph in the true sense of the word. Both volumes of the digital version of the book are available in full and free of charge from the date of publication. This approach to publishing democratises access to the latest scholarly publications across the globe. At the same time, a book such as From Memory to Marble, with its unique and exquisite photographs of the frieze as well as its wealth of reproduced archival materials, demands reception of a more traditional kind, that is, on the printed page. For this reason, the book is likewise available in print as two separate volumes. The printed and digital books should not be seen as separate incarnations; each brings its own advantages, working together to extend the reach and utility of From Memory to Marble to a range of interested readers.
