Take Five! Mary Sue Williams 2001 TAKE FIVE! Staying Alert at Home and School was written for parents and teachers, providing activities that are helpful to keep children alert at home and school. Many therapists recommend these low budget, easy to use activities. This book does not teach children about their engine levels, but it is organized around the five ways to change how alert we feel. We are excited to announce our newest book, Take Five! Staying Alert at Home and School. Teachers, therapists, and parents will love the quick movement breaks and other suggestions to expand their repertoire of self-regulation strategies. Take Five! is chock full of activities to use directly with students or to make recommendations for home and school. The sensorimotor activites and other strategies are "user

friendly" and support children's engines to "run just right." You won't want to miss out on this ideal resource to support the use of the Alert Program.
